## Customer Reviews

The Night Search is an excellent classroom tool for discussion, geared to younger grade school children. The story is told in a way that sighted children can really relate to and understand. The frustrations, emotions and problems that a vision impaired child learns to overcome are presented in a universal way. Any child could relate their own daily challenges to the character, Heather, in this story. Teaching children the process of solving problems and letting them know they are capable of doing so - is the most valuable tool we can give them. This book really helps build on the qualities of self reliance and perseverance. It's wonderful to have a book available with such an uplifting message for children - and to have it available in twin digit format is really great!
