Customer Reviews

I am sorry I have to give this book a bad grade, but there are only a few recipes and none that I find good to try. Also, I thought this would have a lot of recipes, but had more talk about the air fryer and not much of a recipe book. I certainly do not recommend this book.

I think this is the first time that I get to read something about the Air Fryer. And this book, Air Fryer Cookbook, is surely one complete place where I found much of the info I need about this amazing fryer. And I have to be honest that I also find the recipes here very motivating. They are inspiring me to do and exert more effort so that I will be able to provide my family some delicious, scrumptious and healthy meals--and I will not run out of ideas too. This is such a useful book.

Before I read this book I have never heard about air fryer. When I was looking for a cook book I was attached to the title of this book and driven by my curiosity to get it to know what air fryer is and how it works. This book was very simple and clear as it helped me to know this new technology and how it works. The only thing that I didnâ™t like in this book is the long two chapterâ™s introduction before introducing the air fryer in chapter three. Otherwise I liked the book and the recipes it provides.

For new cooking technique method this book is great for you. Gives you the best site for hot air frying! And they explained the advantages of air fryer and let you enjoy your favorite meals with your family. This will be the perfect for those who love cooking. Importantly give you ideas how to keep it clean and serve healthy food to eat!

This cookbook is pretty good and helpful. By the help of this book I have leaner lots of healthier frying methods with recipes. Actually, I had a huge interest to learn about Air Fryer recipes and for the why last week I purchased this book. My co-worker suggested me about this book and by reading this book I am surprised. Here I have found tons of delicious and healthy air fryer recipes. I

liked most of them. The author has described each recipe very clearly and step by step. By reading this book I have learned some recipes for breakfast, snacks and dinner. I already tried some of these recipes and believe it or not, they are really easy to cook and very tasty. Here I have found a step by step guided about how to use the air fryer for making various dishes. I am glad to read this such a helpful cookbook. If you like my honest review then please does not forget to click yet button. Grab this book and learn some awesome air fryer recipes.

This book is about air fryer cookbook. I found the recipes here so interesting and the ideas are really fresh. What is another better thing about this book is that it has discussed stuff, essential ones, about the air fryer that one needs to know first before actually using it. Air Fryer Cookbook for all the delicious and healthy recipes that can be done using it. And this book has given so much info about Air Fryer that readers will find useful and handy. The book is also so well put together. This book is excellent for the simple basic recipes for anyone to make. I like the book very much.

Mostly very large font size in text about food in general, health and air fryer. Very few recipes and very useless unless you are a vegetarian or love baking muffins and other breads. Almost no recipes with meat. Also the temperature fluctuates between Fahrenheit and Celsius and often calls for the wrong one. I threw it away after reading it which took all of 15 minutes.

This book is excellent for the simple basic recipes for anyone to make. This will be the perfect for those who love cooking. Importantly give you ideas how to keep it clean and serve healthy food to eat! This book will only give you perfection. The recipes here are put together by a great culinary master; this recipe book will guide you through low-fat meals that are not only healthy but easy to try. Mostly very large font sizes in text about food in general, health and air fryer.
