Customer Reviews

To use the word `amazing' in the title is just plain deceptive. There is nothing in this book that would make it a weightloss book. The recipes are unappealing. This book should actually be called "The Feta and Mayonnaise Cookbook for People Who Like to Eat Tons of Processed Food and Don't Care About Health or Weightloss."This book claims to be filled with healthy recipes for weightloss that are `amazing'. What you will find are recipes with very small amounts of fresh vegetable. Some recipes have almost nothing fresh with many recipes made with tinned food paired with mayonnaise or olive oil and salt. There are very few green leafy vegetables. There is a ridiculous amount of

mayonnaise, sugar and dairy products way above what you would expect for a 'healthy' book. There are no photos. The layout is abominable. The writing is infantile. I wouldn't be surprised if most of these recipes have been copied from the internet. They most certainly have not been tested. How else would you knowingly publish instructions such as "Melt peas" or "Grate one tomato". Someone who writes a recipe book should know that boiling diced zucchini for a few minutes would turn it into mush. Here are some examples from the recipes themselves:> Some recipes have several tablespoons of sugar in them.> For example: Grape salad has 3 pounds of grapes and one pound of sour cream/cream cheese and 1.5 cups of sugar. Yep, sugar. Did you say this is a healthy weightloss book?> One fruit salad has a cup of marshmallows in it. Another recipe has 10 tablespoons of jam. Yes, jam.> One recipe has 1 tin of tuna, 1 cup of tinned artichoke, 1/3 cup mayonnaise and some olives.
