Customer Reviews

Even \$6.95 was too much for this tiny little cookbook with only 20 recipes.

I love this book my kids are so lucky and refuse to eat avacodos. This book has a bunch of recipes that I can make that my kids will eat and have no idea that avacodos are in it

The recipes look good but as a gift it is a bit lacking. I would have liked some pictures. This looks like pages someone has printed out on the computer and stapled together.

great info and recipes

great recipes, really detailed but easy to follow
